

Instruction for Downloading a VR Image from HD Relay and then Uploading it to Google Maps for Street View and 360 Images

Step 1:

Login to manage.hdrelay.com with your Username and Password provided by the HD Relay Support team.

The screenshot shows the login interface of the HD RELAY system. The top section is a blue banner containing the HD RELAY logo and the text 'PLEASE LOGIN'. Below this banner is a white rectangular area containing the login form. The form has two input fields: 'Username:' and 'Password:'. To the right of the 'Password:' field is a 'Login' button. Below the input fields is a 'Remember me' checkbox. At the bottom of the white area, there is a horizontal line followed by the text 'Copyright © 2018 HD Relay System. All rights reserved'.

Step 2:

Choose the Camera and Player that you would like to download the VR Image from.

Step 4:

A new window will open with the VR Image. Right click on the image and click “Save Image As” and download the image to your file location you’ll remember on your hard drive.

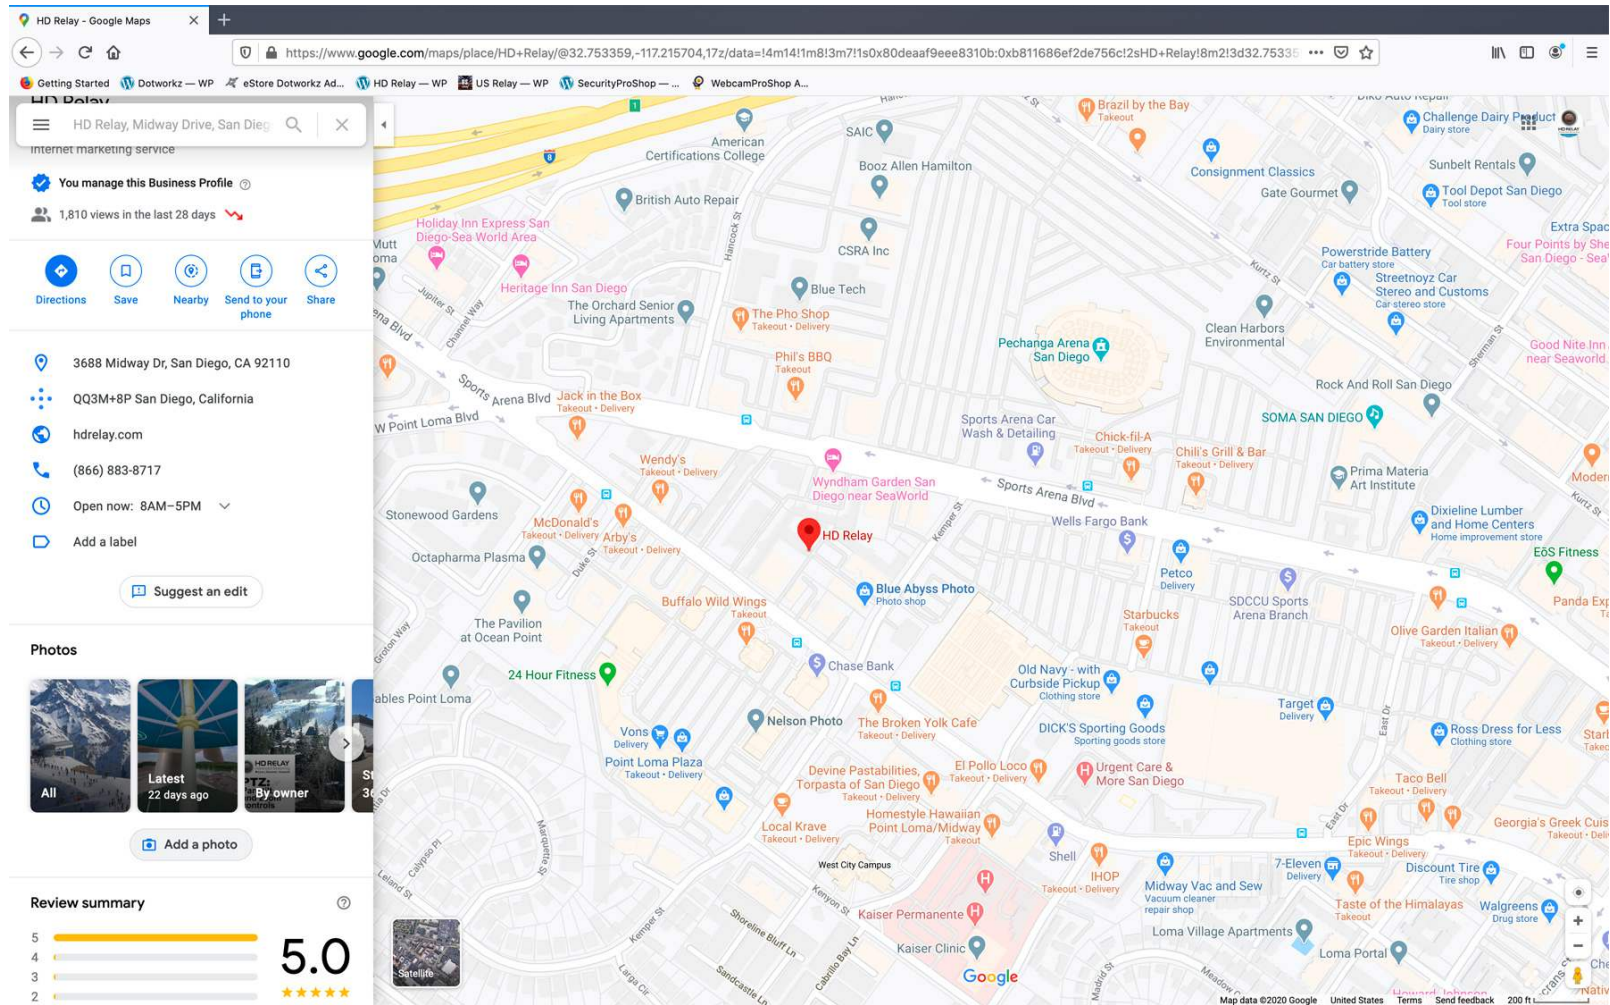

Step 5:

Go to [google.com/maps](https://www.google.com/maps) and search for your business.

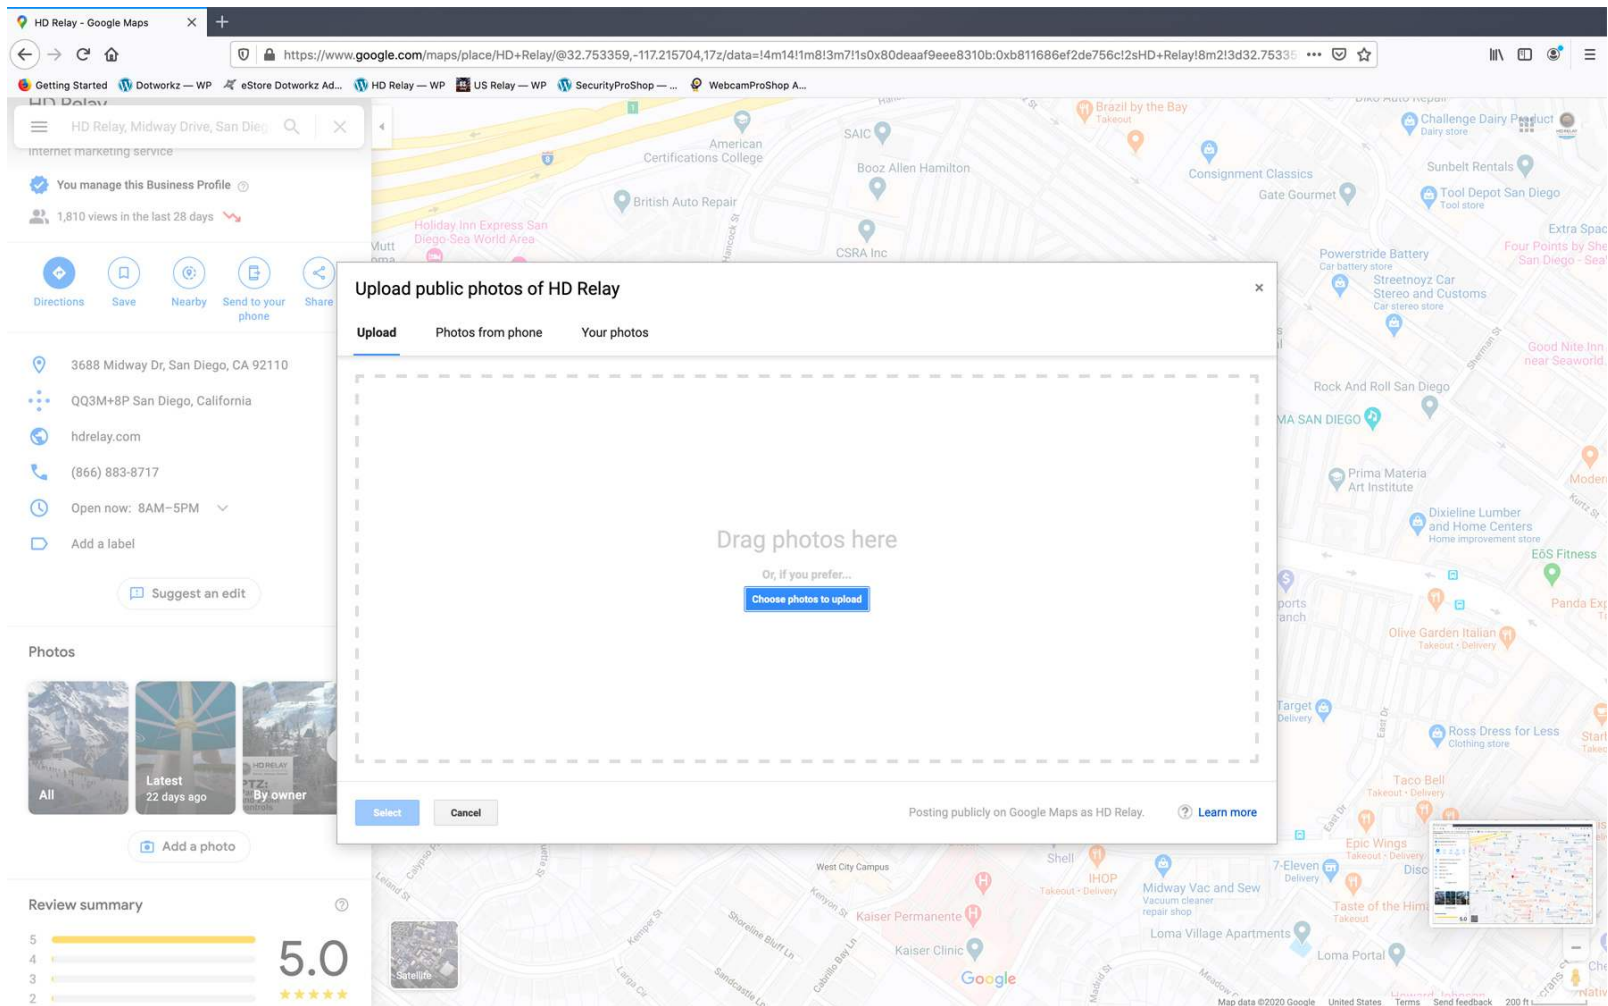

Step 6:

Scroll down the page a little. On the left side you'll see “Add a photo” click on it.

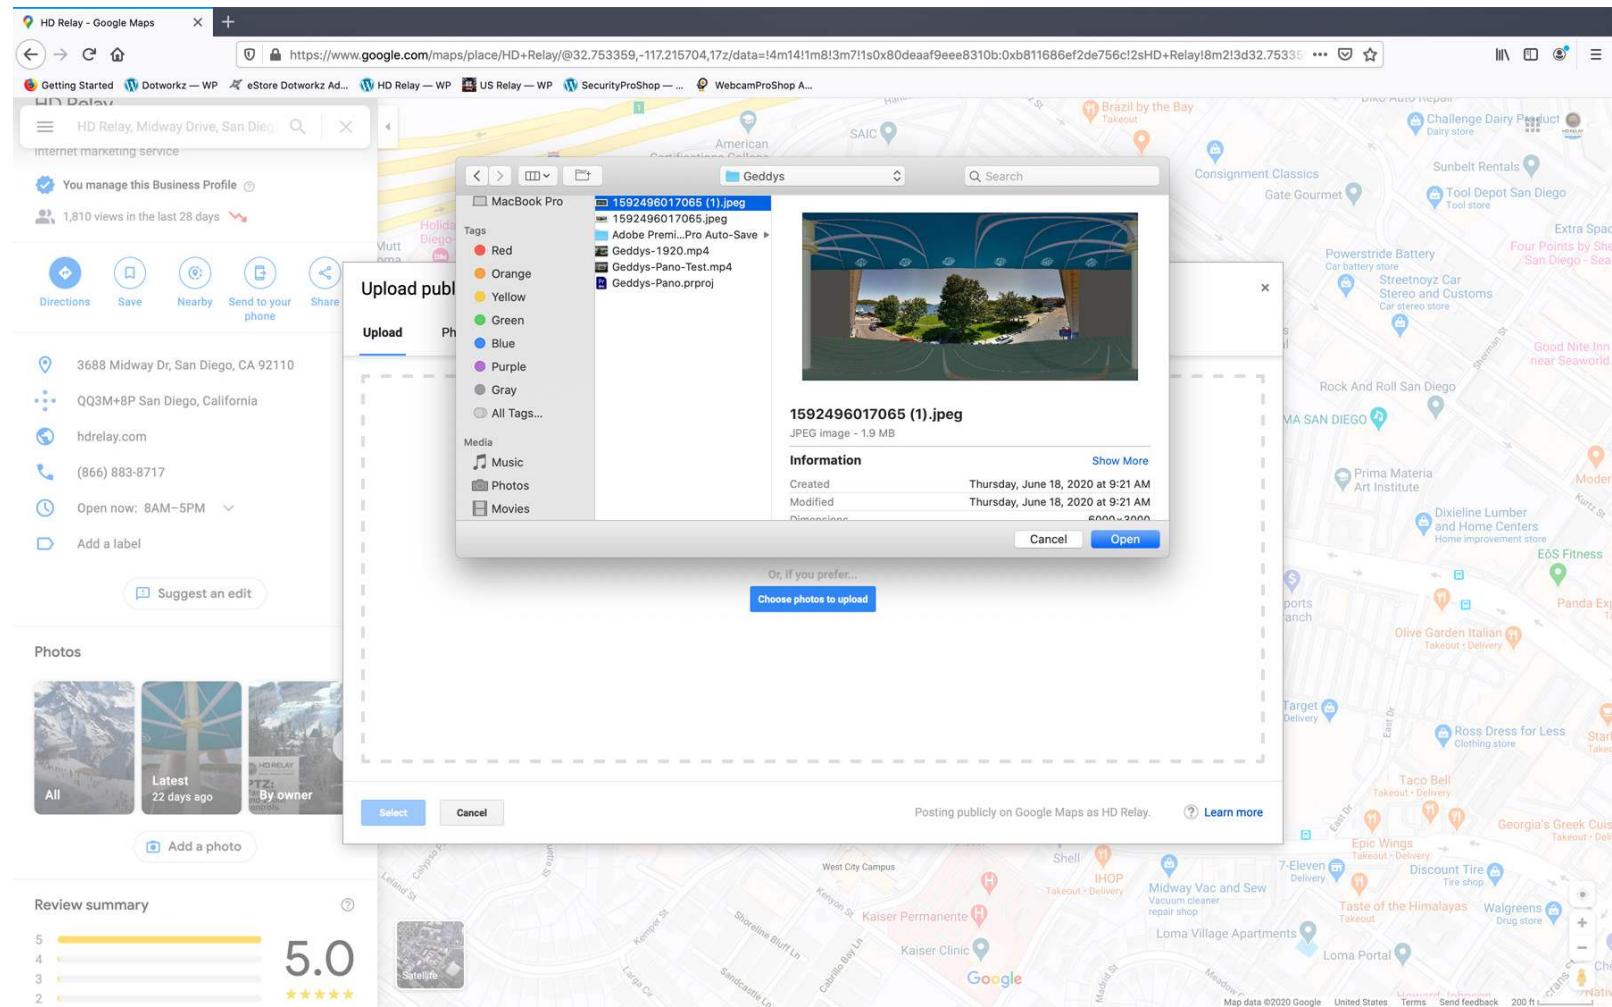

Step 7:

Click on “Choose photos to upload”.

Step 8:

Find the VR Image you just downloaded to your hard drive and click “Open”.

Step 9:

That's it. The world can now see your new VR Image live on google maps street view and 360 modes.
